PROFESSIONAL EXPERIENCE

Front-End Developer Intern   09/2024 – present
Digital Vyapaar   Noida, India
Skilled in creating responsive, interactive, and user-friendly web interfaces using HTML, CSS, and JavaScript. Experienced in collaborating with design and development teams to translate mockups into functional applications. Proficient in ensuring cross-browser compatibility and optimizing performance for seamless user experiences.

PROJECTS

1. Website Project 🔗
A landing webpage of the authentic_designer.
- **Description:** Designed and developed the official company website to enhance online presence and user engagement.
- **Features:** Implemented responsive design, interactive elements, and optimized performance for mobile and desktop devices.
- **Tools Used:** HTML, CSS, JavaScript, Bootstrap, and version control (Git).

2.A Manufacturer webpage 🔗
Responsive Webpage with Hero Banner, Footer, and Side Slider
- **Description:** Developed a responsive webpage with an animated hero banner, bubble footer, and smooth side slider. Utilized HTML, CSS, JavaScript, and Bootstrap for interactive, visually appealing, and device-optimized design.
- Key Features: Animated hero banner, bubble background footer, responsive side slider, and mobile-friendly design for seamless user experience.
- **Technologies Used**:HTML5, CSS3 (including Flexbox and media queries for responsiveness)
- JavaScript for interactive and scroll-based animations
- Bootstrap framework for layout and styling enhancements

3.An Academic Management System
- **Description:** Designed and developed a web-based application to streamline academic processes such as student enrollment, attendance tracking, and grade management.
- **Features:** Implemented responsive design, user authentication, and an intuitive admin dashboard for managing academic data efficiently.
- **Tools Used:** HTML, CSS, JavaScript, Bootstrap, and backend integration

4.Online Retail Application Database:
- Implement user accounts and secure login functionality.
- Explore integrating a shopping cart system with product selection and checkout functionalities.
- Consider incorporating payment processing using secure APIs
